About Michel Thomas

Michel Thomas (1914–2005) was a gifted linguist who mastered more than ten languages in his lifetime and became famous for teaching much of Hollywood's 'A' list how to speak a foreign language. Film stars such as Woody Allen, Emma Thompson and Barbra Streisand paid thousands of dollars each for face-to-face lessons.

Michel, a Polish Jew, developed his method after discovering the untapped potential of the human mind during his traumatic wartime experiences. The only way he survived this period of his life, which included being captured by the Gestapo, was by concentrating and placing his mind beyond the physical. Fascinated by this experience, he was determined that after the war he would devote himself to exploring further the power of the human mind, and so dedicated his life to education.

In 1947, he moved to Los Angeles and set up the Michel Thomas Language Centers, from where he taught languages for over fifty years in New York, Beverly Hills and London.

Michel Thomas died at his home in New York City on Saturday 8th January 2005. He was 90 years old.
